

PRATHAMESH RAJENDRA GAVANDI

Sangli, Maharashtra | +91 –7385648272 | prathameshgavandi2019@gmail.com

GitHub : <https://github.com/PrathameshGavandi> | LinkedIn : <https://www.linkedin.com/in/prathamesh-gavandi-511583286/>

Career Objective :

Software Developer with hands-on experience in Full-Stack Development using C#, ASP.NET MVC, Web API, Angular, Java, and SQL Server. Strong foundation in OOP, Data Structures, Database Concepts, and Agile Development. Passionate about building scalable applications, solving complex problems, and contributing to high-quality software solutions.

Educational Qualification :

- **Master of Science (M.Sc) - Computer Science**

Willingdon College, Sangli | Shivaji University, Kolhapur | Year of Passing : 2026

CGPA : 7.40

- **Bachelor of Science (B.Sc) - Computer Science**

Willingdon College, Sangli | Shivaji University, Kolhapur | Year of Passing : 2024

CGPA : 7.44

- **Higher Secondary Certificate (HSC)**

Maharashtra State Board | Year of Passing : 2021 | Percentage : 82%

- **Secondary School Certificate (SSC)**

Maharashtra State Board | Year of Passing : 2019 | Percentage : 71%

Technical Skills :

- **Programming Languages :**

Java, C#, C, C++, TypeScript

- **Frameworks & Technologies :**

Spring Boot, Spring Framework, ASP.NET MVC, ASP.NET Web API, Entity Framework, RESTful Web Services, Hibernate/JPA, Microservices

- **Frontend Technologies :**

Angular, HTML5, CSS3, JavaScript

- **Databases :**

MySQL, Oracle (PL/SQL), Microsoft SQL Server, MongoDB

- **Tools & IDEs :**

IntelliJ IDEA, Visual Studio Code, Visual Studio, WebStorm

- **Application Servers :**

Apache Tomcat, Oracle WebLogic

- **Version Control :**

Git (GitHub)

- **Operating Systems :**

Linux (Ubuntu), UNIX, Windows

- **Testing & Debugging :**

Unit Testing, Debugging, Log Analysis

- **Development Methodologies :**

Agile Scrum, SDLC

- **Core Concepts :**

Data Structures & Algorithms, Object-Oriented Programming, Operating System Internals, System Programming

Professional Summary :

- Software Developer with hands-on experience in Full-Stack development using Java, Spring Boot and C#, ASP.NET Web API, along with frontend development using Angular and database integration using SQL, skilled in building RESTful APIs and scalable applications.
- Skilled in designing scalable applications using microservices architecture and database integration.
- Strong understanding of Linux system programming concepts including process, memory and kernel interaction.
- Experience in building secure, optimized and performance-oriented software solutions.
- Developed multiple industry-level projects covering networking, cryptography, data structures and system utilities.
- Active contributor on **GitHub** with well-documented repositories showcasing projects.
- Strong analytical thinking and problem-solving ability with quick adaptability to new technologies.
- Experienced in building both **console-based and GUI-based applications** to enhance user interaction.
- Familiar with **Agile and Waterfall SDLC methodologies**, delivering structured and timely solutions.
- Strong foundation in Data Structures (Arrays, Linked Lists, Stacks, Queues, Binary Search Trees) with practical implementation experience in C/C++ and Java.

Technical Projects :

EduTrack- Classroom & Student Management Portal

Technology : Java, Spring Boot, MongoDB, REST APIs

GitHub: https://github.com/PrathameshGavandi/Industrial_Projects/tree/main/EduTrack

- Developed backend services for managing student records and batch operations.
- Implemented RESTful CRUD APIs with NoSQL database integration.
- Designed modular architecture for scalability and maintainability.

EaseElite - Travel Assistance & Package Transport Platform

Technology: C#, ASP.NET MVC, Web API, SQL Server, Angular, HTML, CSS, Bootstrap

GitHub: https://github.com/PrathameshGavandi/Industrial_Projects/tree/main/EaseElite

- Developed a role-based web application connecting travelers with companions for journey guidance and carriers with package senders for package delivery.
- Built secure backend services using ASP.NET MVC and Web API with SQL Server for efficient data management.
- Implemented features like KYC verification, secure payments, real-time updates, and feedback system.
- Designed responsive frontend using Angular, HTML, CSS, and Bootstrap for smooth user experience.

Bagify - Full-Stack E-Commerce Web Application

Technology: C#, ASP.NET , SQL Server, HTML, CSS, Bootstrap

GitHub: https://github.com/PrathameshGavandi/Industrial_Projects/tree/main/Bagify

- Developed a web-based e-commerce application for browsing and purchasing bags online.
- Implemented product listing, user registration, login authentication, and cart functionality.
- Designed database integration using SQL Server for managing products and user data.
- Built responsive UI using HTML, CSS, and Bootstrap for better user experience.

Customised Virtual File System (CVFS)

Technology: C Programming, OS Internals

GitHub: https://github.com/PrathameshGavandi/Industrial_Projects/tree/main/Customised_Virtual_File_System

- Simulated Linux-like file system operations using custom shell commands.
- Implemented system calls (open, read, write, lseek, delete).
- Used custom data structures to manage Inodes, File Tables, and Memory Allocation logic.

File Packer & Unpacker with Encryption

Technology: Java, Encryption

GitHub: https://github.com/PrathameshGavandi/Industrial_Projects/tree/main/PackerUnpacker

- Developed secure file archiving system with encryption and metadata preservation.
- Designed GUI using Swing for user-friendly interaction.

Generalised Data Structures Library

Technology: C++

GitHub: https://github.com/PrathameshGavandi/Industrial_Projects/tree/main/Data_Structure_Library

- Developed a reusable library of linear & non-linear data structures.
- Implemented stacks, queues, linked lists, BST, searching & sorting.
- Designed Using templates for data type independence.

Study Tracker App

Technology : Java

GitHub: https://github.com/PrathameshGavandi/Industrial_Projects/tree/main/Study_Tracker

- Developed console-based study activity tracker with CSV export functionality.

Work history :

Experience : 1 Year

Company name : Prismplus Technosoft LLP

Domain Knowledge :

- Web Application Development
- Full-Stack Development
- Database Management & API Integration

Responsibilities :

- Developed and maintained scalable backend services using ASP.NET MVC and Web API.
- Designed and optimized SQL stored procedures and queries for performance efficiency.
- Integrated Angular-based frontend modules.
- Implemented role-based authentication and secure database operations.
